steamer and 10 cabin passengers and 77 crew.

STEAMSHIP KITTY HELD.
She Had a Mysterious Death on Board, Caused from Baracox.

OFFICIAL TO THE EVENING WORLD.
QUARANTINE, S. L., Sept. 16.—The Norwegian steamship Kitty, which arrived during the night from Baracox, had a death during her voyage, and the victim was buried at sea. The unfortunate man was the ship's steward. He was sick five days, and Captain Hauge says he had some kind of a fever, but was not ill enough to be ill, although he had had a physician for him.

Dr. Talmadge concluded to hold the Kitty for investigation. She carries no passengers.

POLICE PATROL ASLEEP.

A POLICE TUG FOUND THE PLAGUE SHIPS ABSOLUTELY UNGUARDED.

OFFICIAL TO THE EVENING WORLD.
QUARANTINE, S. L., Sept. 16.—A representative of the Associated Press who went down the bay in a private tug to meet the Bohemia last night, reports that he whistled repeatedly for the Police Patrol but got no response.

Suddenly, in the deep haze, the tug ran alongside the patrol boat, but there was no indication of life about.

"The policemen were all asleep," says the Associated Press reporter, "and the harbor was absolutely unprotected. I could have boarded any one of the pest ships without interference, so far as the police were concerned, and have taken a load of passengers away without detection."

The report creates a separation among the Quarantine officials, and the matter will probably be officially investigated.

QUARANTINE MORNING REPORTS.

Condition of the Bohemia Not Officially Known This Morning.

OFFICIAL TO THE EVENING WORLD.
QUARANTINE, S. L., Sept. 16.—At 5.55 o'clock this morning five ships, the Wieland, State of Nevada, Albert Dumous, Kitty and Cienegos were anchored off the boarding station at Upper Quarantine. At 8 o'clock the Raleigh and Bratten, both tramps, arrived and were cleared twenty minutes later.

At 7.50 the Dumous was cleared, and at 8.10 the Cienegos was given a clean bill of health and allowed to dock.

The Wieland has been held in quarantine for a week, but no cases of sickness have been reported. The passage of forty-six cabin passengers has been repeatedly fumigated. Dr. Jenkins has declared every morning for the last three days that she would be passed if she had no symptoms of sickness, which neither Dr. Jenkins nor any of his staff can explain. The steamer is still detained.

Dr. Sanderson left for Hoffman Island at 6 o'clock this morning, taking the Normania and the steamer that carried the bodies of the deceased passengers who have now exhibited any symptoms of sickness, to Camp Bay, San Pedro. The William Fletcher will be sent to the port of San Pedro to take the steerage passengers from the scuttle to Hoffman Island.

The Scandinavian steamer is cleared, the bedding and portable wooden furnishings will be burned, and the vessel thoroughly fumigated under the direction of Dr. Walker.

Dr. Walker has been unable to be reached, received from down the bay since midnight. The death record was then as follows:

	Deaths	Deaths	Total	Total	
	at sea	in port	Deaths	Cases	
Moravia...	5	11	16	25	44
Normania...	5	5	10	10	20
Kitty...	3	0	3	20	23
Wieland...	4	0	4	0	4
Cienegos...	1	0	1	0	1
Totals....	16	26	42	45	87
Totals....	76	20	96	61	137

Although Dr. Byron has not yet completed his bacteriological examination of the bodies of Mrs. Person and her two children, the report of the medical police indicates that the children, but herself, must indicate the arrival of the Wyoming's name from the list of pest ships. Another death occurred yesterday among the crew, but it was that of a child suffering from croup.

According to Dr. Byron's midnight report, Dr. Dinsmore, aged twenty-four, died on Swinburne Island of pneumonia, which fol-

lowed an attack of cholera from which he had recovered.

Ten persons were yesterday transferred to the hospital ward, and three more (one case of measles) to the sick ward.

At midnight there were thirty-three patients and convalescents, and eight sick patients, a total of forty-one, on Swinburne Island.

HOW DID THEY ESCAPE?

Greenport Believes It Has Two Families from the Moravia.

OFFICIAL TO THE EVENING WORLD.
GREENPORT, L. I., Sept. 16.—This village is greatly excited over the report that two Russian women, who joined their husbands here with their children, Sept. 6, were escaped immigrants from the cholera ship Moravia.

The women are Mrs. Mary Henckelmann and Mrs. Paulina Janowski. Their husbands have been in this village several months. District Attorney Bevan and the Town Health Board were told last night the women said they came over on the Moravia.

They questioned the husbands closely and were told that the women and children did come on the Moravia, but they seem not clear as to how they escaped.

It is known that on Sept. 4 Herman Sandman received a despatch from Eliza Island for Henckelmann, saying that his wife, Mrs. Janowski, and her husband, J. W. Janowski, and wife and their children and baggage.

The Board of Health has quarantined the houses of these people and is investigating.

THE PLAGUE ABROAD.

Hamburg Breathing Easier—Austria Still Free—Other Returns.

ASSOCIATED PRESS.

LONDON, Sept. 16.—The Hamburg correspondent of the Standard says: "In this city to-day (Thursday) nine new cases of cholera and 206 deaths from the disease were reported. The bodies of 331 victims were interred during the same time. Public confidence is returning and the theatres are again opening their doors."

The Vienna correspondent of the Times says: "The government committee announced that Austria is still free from cholera and that suspected cases have been proven by bacteriological examination to be without a trace of the disease."

The town was immediately quarantined, and now none is permitted to enter or leave. It is also reported here that a family named Montayor, in Moncada, has been attacked with cholera.

Mr. Roth states that it is reported in Mexico that the epidemic is in San Luis Potosi and Vera Cruz.

Mexico Alarmed at the Scourge's Progress.

ASSOCIATED PRESS.

MEXICO, Sept. 16.—Delegates received here unannounced to the appearance of cholera in New York created a profound sensation at the strand. At midday one case of cholera was reported Wednesday.

ST. PETERSBURG, Sept. 16.—Fifteen new cases of cholera were reported in this city yesterday, against 15 the day before. The deaths yesterday were eight—nine less than occurred Wednesday.

The number of cases in St. Petersburg were 472 new cases and 204 deaths on Tuesday.

The epidemic is still virulent in the provinces of Novgorod, St. Petersburg, Novgorod, Kostroma, Vologda, Smolensk and the Don Tatars.

FRUIT FROM INFECTED HAMBURG.

Passed at Covent Garden Market, Confirmed at Exeter.

ASSOCIATED PRESS.

LONDON, Sept. 16.—A cargo of fruit from Hamburg consigned to dealers in the Covent Garden market arrived here yesterday.

The officers of the Local Government Board were warned of its arrival and at once went to examine it. They found most of the fruit loaded in vans going to a factory in the East End where cheap jams are manufactured.

Though it is known that the fruit was gathered in districts that are being ravaged by caterpillars, it was assumed that as it was sound they could not indicate it.

Twenty-six barrels of plums, part of the same cargo, were sent to Exeter, where they were promptly seized and burned by the health authorities.

SPAIN DECLARES A QUARANTINE.

All Persons from New York Subject to the Regulation.

ASSOCIATED PRESS.

MADRID, Sept. 16.—The Spanish Government has declared quarantine against New York.

Official Gazette announces today that all vessels arriving at Spanish ports will be detained.

Persons arriving at frontier stations from New York will also be subjected to quarantine.
